

ELECTRONIC LEFT FOOT GAS PEDAL

E-SMART PEDAL

**FOR A SMART AND
SAFE DRIVING**

*vehicle specific bracket available

E-SMART PEDAL

On vehicles equipped with an original electronic pedal, a left foot accelerator pedal can be added. A switch on / off activate or neutralize the selected pedal.

Our E-Smart Pedal has been developed by our R&D departement integrating high level of safety standard as this product is ISO 26262 compliant.

Safe and reliable, the E- Smart Pedal is tested to ensure it meets the safety requirements, reducing possible hazards caused by the malfunctioning behaviour of electronic systems.

For the safety and the comfort of the driver, a degraded mode prevent from any sudden breakdown.

FEATURES

- OEM accelerator pedal (standardized)
